# Bonna Is Here For Us!

## Our Approach

As Bonna, we are dedicated to meeting the needs of the present without jeopardizing future generations.

This dedication is one of our corporate principles, placing ethical standards at the very center of our corporate vision since the foundation of our company.

For us, integrity is a crucial quality. Therefore, throughout the production cycle, we consider the problems faced by the world and implement policies for responsible production.

One of our primary objectives is to sustain eco-optimized production. In our factory equipped with cutting-edge technologies, we aim to maximize natural gas and electricity consumption savings in all units.

Our daily operations are carried out in line with circular supply chain management. The water initially used in the production cycle is recycled to be used later. Furthermore, only recycled paper is used for the packing of Bonna products.

### Eco-Optimized Production

- ✓ Reduction in Electricity Consumption Using New Generation Press Machines
- ✓ Reduction in Natural Gas Usage Using Advanced Kiln

Of The Total Water Consumed in a year, 80% is The Water Recycled From Earlier Production Stages.

### Sustainable Product Quality

### Reduced Carbon Footprint

## Specifications

The entire Bonna product range identified with the "b" challenge the toughest standards and can be used for years by fulfilling the Horeca industry requirements.

Detailed R&D process gave the translucency and elegant ivory whiteness to all-porcelain products. Our special formula and ingredients add a unique glossiness to or products.

The stackable design is an indispensable property, especially in the Horeca sector. Our stackable design offers the best and the most practical solution even in the tightest storage areas.

Scratches are a common problem in the food and catering sector. With our extensive R&D efforts, our state-of-art glazing technique offers high-level scratch resistance in all our products.

Thanks to our durable raw materials and extensive R&D efforts, our products can be safely used in microwave and oven even for the high-temperature requirements of restaurants.

Horeca sector requires fast service-to-cleaning cycles. Our high-resistance glazing process protects all Bonna products in highly corrosive industrial dishwasher environment to meet the fast cycle needs.

Our products are durable against sudden temperature changes and under extreme temperature conditions in the kitchen with hard glaze surface and premium raw materials.

We think of all our customers as our partners and share their passion in the sector as our own passion. Our products are specifically designed to present high value to our customers in their service delivery.

# Prints

Prints by Bonna:

**A small step for you, a bigger one for them**

What we take from the earth, we give it back. We reduce our carbon footprint with the Prints Collection, which we produce from **100% recycled material**. We cooperate with WWF-Turkey so that **threatened wild animals** can take one more step on earth.

Every piece of Prints collection is genuinely **inspired by the tail and footprints** of threatened species. With every Prints product that can be put on the table, it is possible to draw attention to living creatures whose future is in danger and to make them leave another mark on the world.

## Gaia

For the chefs creating extraordinary and exotic flavors, a unique collection with its form and colors: GAIA. Inspired by the creation myths in Far East cultures, we bring unprocessed textures and colors of earth - the source of existence and vitality - to the table. With its exclusive design reflecting the mystical atmosphere of Far East, the GAIA Collection symbolizes the "harmony in contrast". Combining sharp and round lines, matte and bright glaze applications and contrasting color transitions, GAIA offers an exciting background for your presentations.

## Notte

Inspired by the Italian word for "night", NOTTE takes a privileged place on the table with the strong presence of black: the color for dignity, power and mystery. Thanks to the black glaze application covering the whole body, NOTTE pieces keep all the secrets the chef whispers to the plate; they only let the vivid colors and shapes of the presentation speak for themselves.

## Mesopotamia

Inspired by the breathtaking mosaics of Zeugma and Efes ancient cities; dedicated to the fertile lands of Mesopotamia - the cradle of civilization... Each piece of Bonna's Mesopotamia Collection is decorated with original figures created through the interpretation of ancient period mosaics. All items can be mixed and matched; and if used seperately all are unique and outstanding. Greet and embrace the past with the Mesopotamia Collection.

## Viento

All avenues of Mediterranean region stretch out to blue, and all winds carry inviting aromas of exquisite flavors. We bring the original texture of Portuguese pavement to the background of Viento Collection, and decorated the rest with Mediterranean blue colored patterns each hand drawn individually. Viento simply became the elaborate symbol of a never ending summer on the table.

## Luca

Bonna presents the bold and assertive LUCA collection, for those who seeks a design to accompany the surprising and impressive harmony of different flavors they bring together on the plate. While designing LUCA, we were inspired by mosaic pieces that become breathtaking when put together and dedicated this collection to chefs who boldly create a mosaic of flavors by combining different tastes and smells.

- WOOD code: S-MT-LUCWD
- SALMON code: S-MT-LUCSL

\*LUCA Collection is made of complementary pieces, can be used in Mix&Match concept. Comes in 1 pattern and 3 base color options.

### Calif

Mediterranean: the region of different but yet identical cuisines... We celebrate and embrace it's diversity with CALIF Collection to accompany the tastes tying Mediterranean food cultures to each other for hundreds of years. We crown the history and future of the dishes born in these lands, yet again with colors and patterns unique to them.

## Madera

Using the surprising harmony of green and bright copper tones, Madera Mint Collection appeals to chefs in search of a different and ambitious playground for their presentations. With impressive tonal transitions and random crack effects, the collection empowers the background accompanying the meal; yet leaves the scene to the food itself despite its intense and dominant presence.

## East *by Robin Levien*

— *“For East, we looked at the national flowers of many Asian countries. It was the perfect inspiration as the flowers are all different, but also similar and that is what we wanted for the items in East. East is designed to bring some fun to the table and for meals to be an enjoyable and memorable experience.”*

The elegant form of Far Eastern flowers meets porcelain and creates an exquisite touch to your presentations. Specially designed for Bonna by one of Europe’s most successful and innovative designers, Robin Levien, the EAST Collection provides a perfect fit with all kitchens and offers a distinctive playground for the “designers of food”.

## Mix Lab

Mix Lab is designed to be compatible with many products such as cups, mugs, bowls and teapots. During design, ergonomics and aesthetic concerns were taken into consideration. It provides ease of holding thanks to its form. It is made of natural beech wood. The type of wood used has a structure that goes with porcelain products. Mix Lab consists of 2 main parts. The first part is the main body and the second part is the disc section consisting of linear bearings. The bearings in the disc section are compatible with a lot of cups, mugs and teapots, etc. Thus, it can be used in different presentation types. In addition, the easily removable disc is also suitable for soup bowl usage.

- Designed and manufactured in Turkey
- Multifunctional & Ergonomic design
- Compatible with many products such as cups, mugs, bowls and teapots.
- Ease of holding
- Consists of 2 main parts. Main body and removable disc.
- Beechwood material

## Softline

While enjoying the rich flavors of coffee enhanced with pure touch of porcelain, you can also treat nature with the kindness and care it deserves... As we continue our sustainability journey, we are doing our part to reduce the use of paper cups and plastic containers in food and beverage industry. With our SOFTLINE porcelain cup collection, we offer an eco-friendly, healthy and colorful series for coffee lovers, while adding comfort to city life with an alternative size that can also be used as a portable bowl.

# Product Care

## Porcelain Care

- You can safely use decorated, hand-painted, or white porcelain products in ovens, microwaves, and freezers.
- It is not advised to move porcelain from a hot oven to a freezer or vice versa because porcelain is a hard but delicate substance that can break with sudden changes in temperature.
- You should not put porcelain on open fire unless it is designed especially for that purpose. (Example: Eared dish)
- In the case of black marks on the porcelain surface caused by metal cutlery, an appropriate steel cleaner or vinegar can be used to remove the marks.
- Caution is advised not to rub metal hardware with Porcelain while washing by hand or in a dishwasher.
- You should not use metal washing wire and tough scrub sponges when washing Porcelain surfaces.

## Glass Care

- Glass material is safe to use in food storage and for hot and cold food. Food can be directly stored or served with glass products.
- Glass is a recyclable material and safe for human health.
- All glass products are dishwasher safe including industrial dishwashers. It is advised to avoid harsh chemicals to clean the glass products. Harsh chemicals might corrode the surface of the products.
- Do not scrape the food leftovers with a metal utensil to avoid any damages on the product.
- Over stacking is not recommended as glass is a fragile material.
- It is not safe to use the glass products in oven and microwave. Additionally, direct flame, excessive heat or sudden temperature changes should be avoided for product safety.
- Always wash all the glass product before using for the first time.

## Wood Care

- Before using for the first time, scrub with saline water, wipe off in time, and leave to dry. For daily maintenance, it can be wiped with olive oil.
- The surface of the wooden board can be damaged when knocked with harder materials.
- Solid wood boards have natural surface textures; therefore, they may differ in their appearances.
- Avoid soaking the wooden board for too long. To prevent bacteria growth, wash and dry it in time.
- Vegetables, meat, fruit, and other food materials can be easily processed on the wooden board. However, avoid too much chopping of hard food materials such as bones to prevent the wooden board from being damaged.
- It is not advised to leave wooden products in damp places for a long time.
- Avoid exposing wood materials to the sun for a long time. Increased loss of moisture could lead to wood cracking.
- It is recommended to use a soft cloth when cleaning. Never use metal wire for cleaning.
- You can wipe the surface with olive oil to extend the useful life of wood products and remove knife traces.
